

Paperspace and Drawing Layouts - AutoCAD 1 Day Course

The aim of this course is to teach the delegate how to set up a drawing correctly using AutoCAD's paper space layout tabs. Once the delegate understands and starts using these concepts they will be able to utilise many of AutoCAD's other time saving features as well as reducing time and mistakes by only having one model.

The **benefits** to you will gain upon attending this course will be;

- ◆ Increased productivity, through producing quicker drawings
- ◆ Produce multiple drawings from one model
- ◆ Reduction in mistakes and increased accuracy
- ◆ Re-use of existing data
- ◆ Reduction of lead times

All our 1 day courses run from 9:15 to 4:30 with a mid-morning and mid-afternoon tea break. Lunch and drinks are provided at a local pub.

All course material is provided and is free to take with you.

Attendees of this course should already be able to competently use the basics of AutoCAD.

<u>Setting Up a Layout</u>	Printing Concepts Working In Layouts Understanding & Creating Viewports Creating Multiple Viewports Creating a New Layout Guidelines for Layouts
