Course Overview

AutoCAD Level 2 Intermediate is a 2 day hands-on practical course that will teach the student more sophisticated commands and techniques to be able to build on their 2D AutoCAD skills. The course covers over 200 commands, concepts and settings, all of which are covered in the 370 page manual. The manual also includes exercises and projects which can be used as practice once the course is completed.

Who should attend / prerequisites

This course is for regular users of AutoCAD who wish to expand their knowledge of the program to aid them as part of a business role or for personal use. It is highly recommended that all attendees have undertaken our Level 1 Beginners course and have used AutoCAD regularly for 3 continuous months. If you have not attended a level 1 course then you should have had 12 continuous months experience and ideally attended a recognised course (City & Guilds) in the last three years.

Courseware / Certificate / Instructor

Everything we do is authorised by Autodesk—the writers of AutoCAD Software. Included in the price of your course will be:-

- An Autodesk Official Training Manual with practical exercises and supporting AutoCAD files/examples.
- An e-certificate in pdf format direct from Autodesk confirming successful completion of an Accredited AutoCAD Course.
- The instructor is an Autodesk Certified Instructor (ACI) with many years experience.

Location & Facilities

Our training facility in Colchester, Essex, is an Autodesk Authorised Training Centre and has the latest AutoCAD software along with older versions if you prefer. We limit the number of attendees to a maximum of six people to ensure you have quality time with the instructor. We can provide one to one or group training at your premise anywhere in the UK.

Dates, Pricing & Discounts

Our scheduled courses are run on the last Wednesday to Friday of each month. Prices per person are £549 ex VAT or £525 each for 2 people.
