

Fusion 360

1-Day Introduction Course

Course Overview

Fusion 360 Beginners is a 1 day hands-on practical course that will teach the student the commands and skills to be able to understand the principles of Fusion 360, and draw basic models. During the course you will learn the workflows of create basic components, how to assemble these components together using joints, export these to 2D drawings and the principles of exporting to 3D printers and CAM, along with rendering and visualization commands. You will also be taught how to collaborate with others on the cloud.

Who should attend / prerequisites

This course is for new users of Fusion 360 who wish to start using the program as soon as possible, whether as part of a business role or for personal use. No previous Fusion 360 or general CAD experience is necessary, however you should have an understanding of Microsoft Windows, ideally version 7 or above and basic computing skills.

Courseware / Certificate / Instructor

Everything we do is authorised by Autodesk—the writers of Fusion 360 Software. Included in the price of your course will be:-

- A step by step exercise pamphlet of the course commends.
- An e-certificate in pdf format direct from Autodesk confirming successful completion of an Accredited Fusion 360 Course.
- The instructor is an Autodesk Certified Instructor (ACI) with many years experience.

Location & Facilities

Our training facility in Colchester, Essex, is an Autodesk Authorised Training Centre and has the latest Fusion 360 software along with older versions if you prefer. We limit the number of attendees to a maximum of six people to ensure you have quality time with the instructor. We can provide one to one or group training at your premise anywhere in the UK.

Dates, Pricing & Discounts

Our scheduled courses are run on the last Wednesday to Friday of each month. Prices per person are £325 ex VAT or £299 each for 2 people. Further discounts are available
