

# AutoCAD Level 3 Advanced

## Training Course Content

### Course Overview

AutoCAD Level 3 Advanced is a 3 day hands-on practical course that will teach the student more powerful commands and techniques to be able to build further on their 2D AutoCAD skills. The course covers over 200 commands, concepts and settings, all of which are covered in the 540 page manual. The manual also includes exercises and projects which can be used as practice once the course is completed.

### Who should attend / prerequisites

This course is for regular users of AutoCAD who wish to expand their knowledge of the program even more, to aid them as part of a business role or for personal use. We recommend a minimum of 18 months continuous full time use before attending this course, however, attendance of our Intermediate Course is not a requirement.

### Courseware / Certificate / Instructor

Everything we do is authorised by Autodesk—the writers of AutoCAD Software. Included in the price of your course will be:-

- An Autodesk Official Training Manual with practical exercises and supporting AutoCAD files/examples.
- An e-certificate in pdf format direct from Autodesk confirming successful completion of an Accredited AutoCAD Course.
- The instructor is an Autodesk Certified Instructor (ACI) with many years experience.

### Location & Facilities

Our training facility in Colchester, Essex, is an Autodesk Authorised Training Centre and has the latest AutoCAD software along with older versions if you prefer. We limit the number of attendees to a maximum of six people to ensure you have quality time with the instructor. We can provide one to one or group training at your premise anywhere in the UK.

### Dates, Pricing & Discounts

Our courses are run on demand and the pricing reflects the number of attendees. Prices per person are £750 ex VAT or £699 each for 2 people. Please contact us for a quotation tailored for your demands. Discounts are available for multiple bookings, please ask for details.
