

Revit Follow On Courses (for Architecture/Structure/MEP)

Collaboration Tools
1/2 Day Course

Overview of these courses.

After attending one of our Revit beginners courses, you will be comfortable in using the basic tools. Problems start arising when you are working either within a team in the same building, across different sites, or with other firms who are working on the same project. Even if you are a self employed Revit user working from home you will at some point need to coordinate with either your customer or their customer.

The Autodesk approved “**Revit Collaboration Tools**” 1/2 day course from CAD Bureau Southern addresses how to overcome these issues using the topics listed on page 2 of this document.

After completing this course you should have the skills required to increase your productivity when working in a team environment or with your customers.

Who should attend / prerequisites

This course is for Revit users of all disciplines (*Architecture, MEP & Structure*) that have attended a Revit beginners course with ourselves or another Autodesk Authorised Training Centre (ATC). It is not a refresher course for users who have forgotten this content. Other Revit users can attend but they must be current frequent users of the program.

Courseware / Certificate / Instructor

Everything we do is authorised by Autodesk—the writers of Revit Software. Each Course comes with;

- An Autodesk Official Training Manual with practical exercises and supporting Revit files/examples. (*Optional extra on 1 day & 1/2 day courses*)
- An e-certificate in pdf format direct from Autodesk confirming successful completion of an Accredited Revit Course.
- The instructor is an Autodesk Certified Instructor (ACI) with many years experience.

Location & Facilities

Our training facility in Colchester, Essex is an Autodesk Authorised Training Centre and has the latest Revit software along with older versions if you prefer. We limit the number of attendees to a maximum of six people to ensure you have quality time with the instructor. We can provide one to one or group training at your premise anywhere in the UK.

Dates, Pricing, Discounts & 1/2 Day Options

This is a custom course and will be run on demand on days to suit the individual. This is a 1/2 day course with prices beginning at £225.00 per person or £199.00 if you send two or more attendees. (Prices exclude VAT).
